KUTBYSHIEV, U. S. S. R.,  
Nov. 8.—Soviet forces stag-  
ed new counter-attacks on  
the blood-soaked Moshaisk  
sector west of Moscow today  
while fierce street fighting  
raged in Kalinin, northwest  
of the capital.

Battered by the incessant  
Red army counter-blows,  
Nazi forces before Moscow  
were reported falling back at  
several points on the cres-  
cent-shaped battle line.

A Moscow radio broadcast picked  
up in London claimed the Germans  
have lost 350,000 men during the  
siege of Leningrad at the northern  
end of the Russian front.

The Moscow broadcast said that  
during October at the approaches to  
Leningrad, 50 enemy tanks were  
captured and 30 trench mortar bat-  
teries, 70 heavy machine guns, and  
90 earth and timber forts were de-  
stroyed. (In addition, said the So-  
viet Announcer, several artillery  
batteries were "annihilated" and  
many ammunition and fuel dumps  
were blown up.)

attacks in the Moshaisk region. This

### PA NEW OBSERVES

An army airplane was evidently  
lost over the city late Friday after-  
noon. According to reports from the  
airport, the ship was flying at a low  
altitude and when first seen was  
flying due west. In a few minutes  
the plane was seen again flying  
north east and in another very few  
minutes the pilot had again turned  
the plane, heading it at last to-  
wards Pittsburgh.

Friday's appreciable rise in the  
Neshannock river, after Thursday  
night's rain, was welcome. It did  
a good job by clearing away lots  
of stuff that had been accumulating  
in the river bed for quite a  
number of weeks.

The first real serious threat of  
snow for the season occurred last  
night and this morning, when a  
little more than a snow flurry could  
be noticed. Below freezing weather  
was indicated before nightfall ac-  
cording to weather forecasts, al-  
though the temperature here was  
only 36 degrees this morning.

### STEEL PRODUCTION REMAINS UNCHANGED

(International News Service)  
PITTSBURGH, Nov. 8.—For the  
third successive week, the rate of  
steel production in the Pittsburgh  
district will hold unchanged at 98  
per cent of capacity next week, it  
was announced today. A year ago  
the rate was 97 per cent.

### Daily Weather Report

for the 24-hour period ending at

snow.

### Berlin Is Pounded By R. A. F. Bombers

### (BULLETIN)

(International News Service)  
LONDON, Nov. 8.—Britain's  
air force unleashed the heaviest  
attack of the entire war on Ber-  
lin and other sections of Ger-  
many last night and early today  
—but at the cost of 37 R. A. F.  
bombers.

An official air ministry an-  
nouncement said a majority of the  
plane losses were caused by  
forced landings resulting from  
what R. A. F. pilots described as  
"dreadful" weather over Ger-  
many and France.

LONDON, Nov. 8.—Squad-  
rons of British bombers last  
night and early today level-  
led smashing attacks on the  
Nazi Reich, concentrating on  
Berlin and vital targets in the  
industrial Rhineland.

Informed quarters in Lon-  
don expressed belief the new-  
est R. A. F. onslaughts were  
among the heaviest of the entire  
war.

It was reported giant four-motor-  
ed stirring bombers, capable of car-

rying huge bomb loads, partici-  
pated in the attack on Berlin.

(EDITOR'S NOTE: Indicating  
that Italy also may have been raid-  
ed, a dispatch from Bern said a  
number of incendiary bombs were  
dropped on the Swiss Canton of  
Saint Gall during the night. The  
bombs fell in an open field and  
caused no damage.)

"Extremely Successful"  
Authorities indicated that they  
understood the attacks had been  
"extremely successful."

The German admission that large  
areas of Germany—in addition to  
Berlin—had been bombed, coupled  
with early closing of most German  
radio stations last night, supported  
belief that the attack was one of  
the heaviest yet undertaken by the  
constantly expanding R. A. F. bomber  
forces.

Targets in Nazi occupied France  
also were hammered during the  
night.

(A Berlin announcement admit-  
ted casualties resulted from the  
British attacks but claimed 19 R. A.  
F. machines were shot down.)

### President Will Probably Act In Rail Strike

Nation-Wide Rail Strike Is  
Threatened In U. S. On  
December 5

(International News Service)  
CHICAGO, Nov. 8.—Action by  
President Roosevelt to head off a  
nationwide railroad strike was pre-  
dicted today as embittered lead-  
ers of the "Big Five" operating brother-  
hoods prepared to issue a strike call,  
probably for December 5.

Decision to call a strike was  
reached yesterday at a meeting of  
the brotherhoods' 400 general chair-  
men. They said a 7 1/2 per cent wage  
increase, recommended by the Presi-  
dent's emergency board and tenta-  
tively accepted by railroad manage-  
ment, is an "insult." They had asked  
a 30 per cent increase.

Because of the 30-day "cooling  
off" period provided by the railway  
labor act, December 5 is the earliest  
date on which the strike could be  
effective. A. F. Whitney, president  
of the Brotherhood of Trainmen,  
said this date will probably be  
chosen when the call is issued Mon-  
day or Tuesday.

Since mediation machinery under  
the federal railway labor act has  
now been exhausted, action by the  
President himself would be the logi-  
cal next step toward solving the dis-  
pute, railroad men stated. It was  
suggested that the President may  
call rail management and union  
leaders together at the White House.

### Japanese Paper Says United States Ready For Worst

(International News Service)  
TOKYO, Nov. 8.—The influential  
newspaper Asahi Shimbun declared  
today that the proposed withdrawal  
of United States Marines from  
Shanghai indicates the United  
States "is making all preparations  
for the worst."

The newspaper also revealed that  
400 Japanese left Manila this morn-  
ing to return to Japan.

### Hitler's Production Plan Outstripped

(International News Service)  
Philadelphia, Nov. 8.—America's  
defense efforts of the last year  
have outstripped Hitler's five-year  
production program, in the opinion  
today of Walter D. Fuller, president  
of the National Association of  
Manufacturers.

Speaking before the founder's  
day banquet of Delta Sigma Pi  
fraternity, Fuller said "at the mo-  
ment, production in this country  
is 45 per cent higher than in 1929."  
The United States is now turning  
out three times as many airplanes  
each month as it did in July, 1940,  
Fuller added.

### Report Advances Made In Crimea

Berlin Reports German And  
Rumanian Troops Move  
Forward

(International News Service)  
BERLIN, Nov. 8.—Further Ger-  
man and Rumanian advances in the  
Crimea were announced today by  
the high command, which said the  
Nazis troops and their allies routed  
a Russian cavalry division on the  
southern slopes of the Yaila moun-  
tains.

Near the narrow passage leading  
to the Isthmus of Kerch, gateway  
to the Caucasus, a modern fortifica-  
tion zone some six miles deep was  
said to have been penetrated. The  
war communique said enemy troops  
defeated in this engagement were  
being pursued.

German planes were declared to  
have sunk a Russian freighter in the  
waters of the Black Sea south  
of Jalta and a Rumanian submarine  
in the Black Sea was reported to  
have sunk several Soviet transport  
vessels totalling 12,000 tons.

In addition, authorities said, a  
coastal battery shelled and sank a  
Soviet gunboat yesterday when it  
approached the captured port of  
Taganrog on the Sea of Azov.

### Poppy Day Is Being Observed

World War Emblems Being  
Sold On Streets By Le-  
gion Auxiliary

Blood red emblems of World War  
sacrifice replicas of the red poppy  
of Flanders Fields, are being worn  
by local residents today as a re-  
membrance of World War One.

These poppies, made by disabled  
veterans, are being distributed to-  
day by the auxiliary of Perry S.  
Gaston Post, American Legion, as-  
sisted by a group of sixty girls, and  
their solicitation is meeting with a  
generous response from the public  
as was indicated by the great num-  
ber of people seen wearing these  
emblems.

### Below Freezing Weather Near

PITTSBURGH, Nov. 8.—  
Better have that car radiator  
checked and take a blanket if  
you're going to a football  
game today.  
The weather bureau at  
Pittsburgh predicts below  
freezing temperatures and  
snow flurries for tonight.  
Flurries this afternoon, too.  
The weatherman said the  
mercury would go to 30 de-  
grees tonight at Pittsburgh.  
Last night the county airport  
recorded 34 degrees when it  
was 37 downtown.

### Find Constable Shot To Death

Hunt Elderly Man In Slay-  
ing Outside Cabin In  
Uniontown Mountain  
Region

(International News Service)  
UNIONTOWN, Pa., Nov. 8.—Auth-  
orities today were hunting an elder-  
ly married man in the slaying of  
Enos W. Van Sickle, 58-year-old  
Wharton township constable who  
was found shot to death outside his  
mountain cabin near Farmington.

State motor police were guarding  
all roads leading from the Farm-  
ington district, about 12 miles from  
Uniontown, to prevent the suspect  
from escaping. Authorities said the  
man they sought lived in the sector.

The body of Van Sickle, with a  
blackjack wrapped around the right  
hand and a whisky bottle nearby, was  
found by Orval Van Sickle, a cousin.  
Deputy Coroner Harold Gleason es-  
timated the victim had been dead  
about nine hours. The fatal bullet  
entered at the shoulder and emerged  
through the chest, he reported.

Missing were Van Sickle's gun and  
holster and the keys to his automo-  
bile. Harley Van Sickle, Wharton  
township squire and son of the  
dead man, reported that his father  
usually carried his gun and holster  
when away from the house.

### New Attacks On Nazis By R. A. F.

(BULLETIN)  
(International News Service)  
LONDON, Nov. 8.—Despite last  
night's heavy losses—37 bombers—  
the R. A. F. unleashed new attacks  
on Nazi military targets today.

Shortly before noon a heavy force  
of fighters and bombers crossed the  
coast and roared over the channel  
at terrific altitudes.

The squadrons sped into action  
at 20-minute intervals.  
Other powerful forces of Spitfires  
and Hurricanes crossed the coast  
at another point near Dungeness  
and swept over the channel.

An hour later fighters and bom-  
bers began to swarm back to their  
bases, many coming from the di-  
rection of Boulogne.

### Wounds Mother And Brother When Auto Is Refused To Youth

(International News Service)  
Connellsville, Pa., Nov. 8.—A 21-  
year old Fayette county youth, crazed  
with liquor, early today shot and  
wounded his mother and an older  
brother after an argument over  
their refusal to let him use the fam-  
ily car, police reported.

The mother, 58, was reported in  
serious condition at Connellsville  
State Hospital.  
Police said the son, Eugene Benek  
who was arrested and held in the  
Connellsville jail, shot Mrs. Benek  
in the right breast and his brother  
Alfred, 30, in the right shoulder  
with a .30 gauge shotgun. The  
shooting occurred in the Benek  
home on Swagerton road near Con-  
nellsville.

Mrs. Benek and Alfred had re-  
fused to permit Eugene to take his  
automobile to visit a girl friend  
authorities said.

### Expect To Start Bus Lines First Week In December

"I am hoping to have pas-  
senger buses operating here  
some time during the first  
week in December," said W.  
H. Muldoon, vice president  
and general manager of the  
Shenango Valley Motor Bus  
Transportation company  
Friday afternoon.

The statement was made follow-  
ing a conference between police of-  
ficials, local Superintendent of rail-  
ways and buses, T. C. Moore and  
Muldoon.

The conference was held for the  
purpose of arranging for bus stops  
in different sections.

Until yesterday it was not an-  
ticipated that buses could be secur-  
ed by the company until late De-  
cember or early January.

"Owing to unexpected occurrences  
the company will receive delivery of  
all 13 buses on November 15," Mul-  
doon announced.

"It will require 10 or more days  
to train men. In addition there must  
be made some property changes."  
And added the rail and bus exec-  
utive "if it is possible buses will be  
operated some time during the first  
week of December."

Operators must be trained and the  
buses during the training period will  
be operated over their routes.

During the training period the  
buses will not carry passengers.

However they will start carrying  
passengers, during the first week of  
December, it is expected.

When the buses actually begin  
carrying passengers it will be the  
climax of a two year negotiation be-  
tween the city and the company.

### Price Control Action Is Near House Will Probably Pass Measure Within Ten Days Or Two Weeks

By GRIFFING BANCROFT  
International News Service Staff  
Correspondent

WASHINGTON, Nov. 8.—Speak-  
er Sam Rayburn, after a consulta-  
tion with his chief lieutenants, to-  
day predicted that the house will  
approve "some kind of a price con-  
trol bill" within ten days or two  
weeks.

Rayburn, however, declined pub-  
licly to forecast whether the mea-  
sure will be tightened up as the ad-  
ministration is asking or whether  
it will be approved in its present  
form which opponents contend is  
ineffectual.

The bill, Rayburn said, probably  
will be on the floor Nov. 17, since  
the house will be occupied most of  
next week with consideration of the  
senate-approved neutrality bill.

Congressional leaders are faced  
with a tough fight over the price  
control measure and are confronted  
with a warning from administra-  
tion spokesmen that the bill in its  
present form probably will be vetoed  
by President Roosevelt.

The situation—threatening to de-  
velop into a major stalemate be-  
tween the congressional farm and  
labor blocs—was thrashed over in  
entirety in a series of heated,  
closed-door conferences between  
Price Administrator Leon Hender-  
son and Democratic leaders of the  
house.

### Movie Inquiry To Be Reopened On November 17

(International News Service)  
WASHINGTON, Nov. 8.—Sen.  
Clark (D-Ill.), chairman of the  
senate committee investigating al-  
leged war propaganda in the movies,  
today announced that the inquiry  
probably will be reopened on No-  
vember 17, with Assistant Attorney  
General Thurman Arnold as the  
first witness.

"We expect to call some witnesses  
and then draw up a report for the  
Interstate Commerce committee and  
let it decide whether there will be a  
full-fledged investigation," said  
Clark.

Arnold, in charge of anti-trust  
law enforcement, is expected to be  
questioned on the alleged monopoly  
in the motion picture industry. The  
Clark sub-committee, in its initial  
hearings, heard charges that five  
major companies control the indus-  
try and thus have vast power to  
spread war propaganda if they see  
fit to use it.

Will H. Hays, movie czar, and  
Louis De Rochemont, producer of  
"March of Time," probably will be  
called as witnesses, Clark said.

Some Senators Assert Action

WASHINGTON, Nov. 8.—  
The epochal administra-  
tion battle for repeal of ma-  
jor neutrality act shipping  
restrictions shifted to the  
house today, following sen-  
ate passage of the Connally  
bill by a vote of 50 to 37, with  
a house showdown expected  
next Wednesday.

A close house vote on ac-  
ceptance of senate amend-  
ments was foreseen by admin-  
istration and non-interven-  
tionist leaders alike as both  
sides began a fight to garner  
votes.

Foes of the repeal measure con-  
tended that it means putting the  
United States into the European  
war, a charge hotly denied by ad-  
ministration leaders.

In a final effort to halt enact-  
ment of the law, non-interven-  
tionists appealed to the nation to de-  
luge house members with telegrams  
and letters against it.

Amended By Senate  
The measure originated in the  
house, but provided only for repeal  
of the ban on arming of merchant  
ships. It passed by a 121-vote mar-  
gin.

The senate, however, wrote two  
additional, far-reaching sections into  
it. Senate amendments repeal pro-  
visions against American ships en-  
tering combat zones or belligerent  
ports. Under it, American ships can  
carry lend-lease goods direct to  
British ports.

Speaker Rayburn predicted that  
the house will accept the adminis-  
tration amendments and send the  
bill to the White House next week.  
But Rep. Fish (R-N.Y.), opposition  
leader, declared that "the vote will  
be close and I think the house will  
defeat the bill."

The measure was passed by the

# Hunt \$7,000 In Missing State Funds

## Baughner Faces New Charges

Embezzlement Of Additional \$10,000 Charged To Resigned Deputy Treasurer

TRACE \$23,000 OF FUND OF \$30,000

By RAYMOND WILCOVE  
International News Service Staff Correspondent  
HARRISBURG, Nov. 8.—State authorities today pressed a search for \$7,000 in missing Commonwealth funds after charging a resigned deputy state treasurer, Clifford G. Baughner, of Erie, with having embezzled an additional \$10,000 besides the \$13,000 of whose defalcations he is already accused.

Both Gov. Arthur H. James and Attorney General Claude T. Reno indicated their belief that other persons were involved besides Baughner, and there hints that new developments in the swiftly-moving case might be expected momentarily.

**Trace Funds**  
Reno disclosed that \$23,000 of the \$30,000 in state funds which Governor James said "appear to have gone for purposes other than intended" have been traced to a private bank account in Pittsburgh, where Baughner held with his secretary, Miss Genevieve Church, of Union City. Thirteen thousand dollars of this have already been recovered by the state.

The remaining \$7,000 in defalcations do not, it was stated, involve Baughner, and a search is now being made by the Department of Justice to ascertain where the money has gone. In addition, Reno disclosed, an attempt is being made to determine "whether any other persons were engaged with Baughner in his fraudulent transactions." Still to be discovered also is the person or persons responsible for eight or more state documents missing from the files of the state treasury and auditor general's departments.

**New Warrants**  
Reno said new warrants will be sworn out charging Baughner with embezzling the additional \$10,000 in state funds. The former Democratic fiscal officer, who resigned on October 24, citing illness, is now confined to an Erie hospital under police surveillance. Recovering from a major operation, he is expected to be arrested upon his release from the hospital. He has pleaded innocence.

According to Reno, Baughner will be charged not only with embezzling \$13,000 in state funds by means of checks for state postage which he allegedly had made payable to Leo Werner, Harrisburg postmaster, and whose name he is accused of forging, but, in addition, with embezzling an additional \$10,000 obtained through two checks made out in the name of Charles Schloss, Erie postmaster.

## BERLIN IS POUNDED

BY R. A. F. BOMBERS

(Continued From Page One)  
land, bombing several eastern northeastern and southeastern coastal towns and killing and injuring a number of civilians.

High explosives damaged houses and property while anti-aircraft batteries sent up terrific barrages that shot down at least one German plane into the sea.

**Relays Of Planes**  
Relays of British planes, in retaliatory attacks, roared across the channel and hammered German airbases in France while still others ranged into Germany.

Observers on the coast saw bursts of heavy anti-aircraft fire in the Boulogne area.

R. A. F. attacks yesterday marked the introduction of a new wrinkle in aerial warfare—use of Hurricane fighting planes to drop delayed action bombs from "straining altitudes" on factories, gun positions, supply trains, transport columns, wireless stations and similar targets.

## SOVIET GAINS IN MOSCOW REGION CLAIM OF REDS

(Continued From Page One)  
dispatch added there had been no substantial changes in the Narofimsk, Maloyaroslavets and Serphovsk sectors outside Moscow.

It said street fighting raged in the northern parts of Kalinin where the Germans were offering stubborn resistance.

Russian authorities claimed the Soviet counter-blows were proving especially effective northwest of the beleaguered capital.

The latest high command communiqué said fighting continued along the entire front and added 55 German planes were destroyed Thursday while the Russians lost six.

On that same day, it was announced, Soviet bombers destroyed or disabled 70 German tanks, 250 trucks loaded with infantry supplies and 15 field guns.

They also were credited with blowing up an ammunition dump and a train and wrecking five fuel tank cars and many carts filled with ammunition and food. One Russian air attack was declared to have "dispersed or annihilated" a Nazi infantry regiment.

**Intense Cold**  
(Reports to London newspapers from Stockholm said snow, sleet and more intense cold were sweeping the Moscow front and that the Russians were "steadily gaining ground" in the Kalinin sector northwest of Moscow as a result of their counter-attacks.)

(Reinforced Nazi tank divisions staged an attack northeast of Kalinin, where they were said to be engaged in a still raging battle with a Russian division. Because of incessant Soviet pressure, the Germans were reported to have built barricades and placed lines of guns in the center of Kalinin.)

In the Volokolamsk area west of Moscow, these dispatches said, the Russians widened their counter-attacks along the Moskva and Istra Rivers after pushing the Germans back some three miles. To the south the Russians were reported holding firmly in their fortifications protecting the great Crimean Naval Base of Sevastopol on the shore of the Black Sea, while air battles raged constantly overhead.

**Winter In Donetz**  
(Winter weather was declared to be impeding the Germans in the industrial Donetz Basin, where the Soviets are making a determined stand in defense of the manufacturing center of Moscow-on-Don.)

Northwest of Moscow the Russians were making an effort to restore rail communications between the Capital and Leningrad.

The Russians also appeared to be starting a counter-attacking campaign in this sector eventually aimed at relieving the Nazi siege of Leningrad.

(One military report received in London said a spur rail line on the route to Leningrad from Moscow already has been cleared of German troops.)

The mechanized Soviet counter-blows, falling with terrific force on the Germans in the Kalinin and Volokolamsk regions, were declared to have regained many positions previously lost to the Nazis. Northwest of Kalinin, Russian authorities said, the Germans were thrown back at several points after their lines were pierced.

Other front line dispatches claimed the Germans also were falling back at Tula, south of Moscow, under the weight of Russian trip-hammer blows.

## NEUTRALITY ACT 'SHIPPING REPEAL' NOW UP TO HOUSE

(Continued From Page One)  
senate after 11 days of debate, which waxed so warm that it was not until 9:15 p. m. after the senate had been in session continuously for 10 hours, that the bill was passed.

Roosevelt leaders in the senate acclaimed passage of "the bill as a vote of confidence in the president's handling of foreign affairs, and a ringing determination by the senate to uphold the doctrine of freedom of the seas."

**'Means War'**  
"It is a terrible thing to take your country into war," exclaimed veteran Sen. Johnson (R) Cal. "Run- nies at the end of this vote tonight."

A vote for this, with the president having declared his policy, is a vote for war, cried Sen. Taft (R) Ohio.

"This means war and an A. E. F.," said Sen. Wheeler (D) Mont.

Sen. Connally (D) Texas, who handled the bill, violently disagreed. "I pray God we may never have another war," said the tall Texan himself a war veteran. "I want to impress on senators that the passage of this bill does not mean war. It does not change our situation one jot or tittle."

"It simply means that we re-assert our inalienable right to have our ships travel on the high seas unmolested by Hitler's assassins of the deep."

**'Best Policy'**  
"We are all against war but some of us believe the policy of this administration has been the best way to avoid war," said Sen. Hatch (D) N. M.

Sen. Nye (R) N. D. of the bill voiced hope that the house will reject the senate amendments repealing combat zone provisions.

"This vote against the bill in the senate was a tremendous thing," said Nye. "It was accomplished in the face of terrific presidential pressure."

"This result should and does give great encouragement to members of the house who have been at all uncertain. From what I have heard the prospect for defeat of senate amendments in the house is excellent."

"The final decision rests with the people of the country, who will undertake to make their wishes known to their representatives in the house."

While the senate vote on passage was 50 to 37, eight members were paired, and one did not vote. Three were paired for the bill and four against, with Sen. Murdock (D) Utah, who was paired, not stating his position. Sen. Downey (D) Cal. voted with the administration on the crucial Clark amendment, which would have retained combat zones but was absent when the final roll call was recorded.

## Lewis Seeks To Speed Decision

Mediation Board Prolongs Hearings In "Captive Mine" Controversy

(International News Service)  
WASHINGTON, Nov. 8.—Undisturbed by prods from John L. Lewis, the national defense mediation board today prolonged its hearings over the "union shop" dispute between Lewis' United Mine Workers and steel companies owning coal mines.

Lewis, after calling off a strike of 53,000 miners in the company-owned coal pits last week in response to pleas by President Roosevelt, wrote Mediation Board Chairman William H. Davis that he expected the board to make its recommendations by the end of this week at the latest.

Davis retorted that he would not allow Lewis to put the board "under pressure" by setting a deadline. Davis said at a press conference late yesterday that the board would not make known its decision until next week, thus disregarding Lewis' letter.

The mine workers' chieftain was expected to withhold comment pending the board's decision. He has set November 15 as the deadline for another strike if his union is not granted a union shop. Neither the steel companies nor the union will be bound by the board's recommendations, and if they are unacceptable to Lewis, officials of the Mine Workers are expected to point out that the board's decision may be responsible for two days in subsequent negotiations.

## PARADE PLANS FOR AMISTICE DAY ARRANGED

(Continued From Page One)

street, where it will be reviewed by the judges and city and county officials, before breaking up at Falls street.

**At Head Of Parade**  
Heading the parade will be the State Championship American Legion Bugle and Drum Corps from Rochester, followed by the three companies of the Pennsylvania Defense Reserve Corps, after which will come the World War veterans, members of the American Legion and Veterans of Foreign Wars.

Occupying a place of honor in the parade will be the fathers of men who are now in service, and a division composed of men in the service who are home on furloughs. Promptly at 7:25 o'clock, an aerial bomb will be exploded, which will be the signal for the different units to get ready to move out and at 7:30 the signal to march will be given by Marshal Wadlinger.

It is expected that around 5,000 persons will take part in the parade, a thousand alone being listed in the 15 bands and bugle corps who have sent in acceptances to participate.

**Only American Flag Permitted**  
Only the American flag will be displayed in the parade. Organizations will be permitted to bear the standards of their organizations, but no other flag than the American flag will be carried by any of the marchers.

It was felt that if the parade were started at a distant point from the center of the city, that more people could see without discomfort, rather than confine it to the downtown section of the city alone.

Fraternal organizations which have signified their intention of marching include the Elks, Moose, Kiwanis club, Lions club, Polish societies, German Beneficial Union and others.

The parade will probably be the biggest Armistice Day parade witnessed here since the days immediately following the close of the World War, when Tri-County celebrations took place in this area.

## New Strike Threat At Ravenna Plant

(International News Service)  
Ravenna, O., Nov. 8.—Continuance of production at the \$34,000,000 shell-loading plant of the Army's at Ravenna hinged today upon governmental action in a threatened strike next Thursday of 1,500 production, maintenance and transportation workers at the arsenal.

The strike was called for next Thursday at 8 A. M. by four unions according to R. W. Walker, President of the National Arsenal Workers of America, who claimed that the "patience of the employees has been exhausted" because of failure to receive a contract.

Walker said the War Department's refusal to allow a contract between the unions and the Atlas Powder Co., operators of the arsenal, would result in the workers walking off their jobs at the appointed time and staying out "until the contract is approved."

## NEWS AND CENSORSHIP

UNITED STATES relationship to the war is shot through with anomalies arising from the circumstance that the United States is still a technical neutral, still at peace, while engaged in a belligerent partnership with Great Britain and her Allies, and in actual naval warfare with Germany.

That partnership presents numerous problems both at London and Washington. Precedent offers no solution in a relationship itself without parallel.

One of the most vexing problems concerns military information and censorship. In Britain there is a censorship both of domestic news and of outgoing news dispatches. In the United States there is no censorship except as defense information is withheld at the source, and as newspapers voluntarily cooperate, at official request, in not publishing news of certain ship movements, whether of merchantmen or of naval craft.

Freedom with which information is given out or made available at Washington is causing Great Britain great concern. On October 24 President Roosevelt announced that after November 1 the Office of Production Management would keep secret all details of war production. This announcement is regarded as the result of British pressure.

Among recent disclosures that Britain thinks should not have been made were statements that American tank production will not reach 2,000 a month until June, 1942, that Boston had been designated as a principal port of loading for supplies to Russia, which would hereafter go to Archangel, and that the United States will henceforth manufacture a new type of torpedo for the British.

No information is ever withheld for long at Washington, which is a sieve of secrets. The American people and Congress expect information as to the progress of American defense and American aid to Britain and her Allies. With the vast staff of government press agents now at work, there is keen competitive impetus to tell what and how much is being accomplished. There is a desire to impress Congress, source whence all appropriations flow.

How to meet the public and Congressional demand for facts without helping Hitler is a problem for which, in its nature, no general rule can be framed. Even Britain, with its censorship, has on occasion given American news concerning themselves not available here, as when Prime Minister Churchill gave an account of the Atlantic conference before President Roosevelt got around to it.

## COAST GUARD IN THE NAVY

"Always ready," the motto of the Coast Guard, is recalled by President Roosevelt's timely action in placing the nation's maritime police force under the Navy. The Coast Guard was called to active service when our young country face its first defense emergency, the threat from France, in 1797, when Ambassador Pinckney proclaimed: "Millions for defense, but not one cent for tribute." At that time America had no Navy.

Today we have a Navy second to none. But the Coast Guard has its own indispensable role in national defense, and it has been peculiarly fitted for this duty by its varied and valuable peacetime activities. While it is charged with enforcing all laws afloat, it is chiefly concerned, in normal conditions, with promoting safety at sea.

In its various capacities the Coast Guard works for seven of the executive departments. A declaration of war automatically transfers it to the Navy, but the President is empowered to take this action whenever an emergency exists. Mr. Roosevelt had previously placed a number of the Coast Guard's sea-going vessels under the Navy Department. This general transfer now is a logical move—not for war, but for defense. Coast Guard vessels are especially adapted for patrol and other services in which battleships and cruisers could not be so effectively employed. Theirs will be a post of special danger, but the Coast Guard has always sought such duty and it is good to know that it is better equipped today than ever before.

## PLAN PROVES NOT EFFECTIVE

Washington once had real hope that distribution of food and medicine would win popular support for the Allied cause in countries where Axis influence is strong. Principal effort was to be directed at Spain and Unoccupied France. This effect has been a failure.

No general relief was considered, but even a moderate "vitamin diplomacy" has met with discouragement. Authorities point out that weeks of discussion were required before a diplomatic arrangement could be made under which Greece was to receive food and supplies from the Turks. The consent of all belligerent governments had to be obtained.

There was also a complicated arrangement under which the Italians were to send milk to Greece in return for which the British permitted a similar amount of milk to go to Asmara and Britrea for Italians in that area. Negotiations are still under way to send medicines, including vitamins and milk, into Unoccupied France and, if possible, Spain.

Britain, with its powerful weapon of blockade, is averse to relaxing one of its principal methods of war. Suspicion will not down that supplies are diverted to the German Reich or at least that the Nazis get credit for them. Both in Spain and in Unoccupied France German pressure is reported to have compelled local newspapers to avoid mention of the fact that the food and medicines originated in the United States and that Britain opened her blockade to permit their entrance.

Thus whatever good will might accrue to the Allies is thwarted. As good will, as well as a limited humanitarian purpose, was the object, it is no wonder Washington is discouraged, London not enthusiastic, about this tedious, involved and ineffective method of propaganda.

Income taxpayers should begin saving systematically to meet the March 15 deadline, warns Secretary of the Treasury Morgenthau. Being out of funds when Uncle Sam wants his divvy would be embarrassing.

## The Parent Problem

By Garry C. Myers, Ph.D.

## PARENTAL TEAMWORK HELPS

Often in this column I have said that the young husband and father who shares a little in the household chores and in the care of the young children helps build for happy future family life. Here is an interesting letter:

"Dear Dr. Myers: Some time ago you published a letter from a young mother who had to smile at the ladies who wanted help from their husbands after they had worked all day and thought those who did so were just plain lazy. So I should like to tell of my experience.

"My husband is a school teacher and gets \$100 a month. We have five children—from nine years to eight months—we live in a house that is only partly modern. This year I have canned 600 quarts of fruit and vegetables. I do my own laundry, dry cleaning, house cleaning, papering and painting. I helped weed and water the garden while hubby was away at work this summer. I do all my own sewing, including my boys' shirts and trousers and my own dresses and never put anything away unattended.

"I find time to read a story to the children and sometimes two every night. I give piano lessons to my two eldest girls and two other girls in this neighborhood. I am secretary of our Sunday school, of which my husband is superintendent, am chorister of the Relief Society and still find time for a few hobbies. I have 14 picture scrapbooks and have kept a daily diary since I was 12 years. I sing and spend a few minutes a day practicing. I read the daily paper and keep in touch with current events, and good magazines and books when I can get them.

**Enjoyment Of Life**  
"In other words, I live. I love. I laugh. I work and I enjoy my husband and family.

"Of course, we have to pinch and save and count the pennies, wear last winter coats and dresses this year and next. I curl my own hair and darn the socks twice. But we get along. We sometimes look a little shabby but we can't help it. We are around us. We budget our money to the penny and stick to it. The children, as young as they are, help plan it and know where the money comes from and where it goes. They know why they can't have an extra nickel for candy this week and why we can afford a show next week.

"The children are all learning to work. The girls help me with the dishes and they get on one side of the bed while I make the other and we have a bed-making lesson nearly every day. The boy, who is nine, gets in the wood and coal and makes the fires.

"However, unlike this other young mother who thought she had so much to do, I do ask my husband for help. He does most of the garden work and fixes things about the place. If he comes home after a hard day's work and sees me dragging around trying to finish up my day's struggle he helps without asking. Many times we have canned and painted till midnight.

"The heart of America is in homes like this one. You and I would like to be a welcome guest in a family such as this mother describes. We feel richer in spirit for having read about it.

**Solving Parent Problems**  
Q. Other writers advise isolating the child for punishment, by sending him to be alone in another room; but you always insist that he should sit in a chair doing nothing where he can be seen by the parent. Why are you out of step here?

A. Sent to another room, the child may get into more mischief or merely amuse himself. In either case it hardly would be a punishment at all.

## THE OLD RAZOR STRAP

There was no safety razor in the days when I was small; Men used a thick, old-fashioned blade or didn't shave at all. The boy who had the bathroom door was a two-inch strap was hung. For sharpening the razor edge and sharpening the young. And when I needed punishment—a naughty little chap—My father thought it proper to apply that razor strap.

"It hurts me," muttered father, "more than you to treat you so. But this I do to train you in the way that you should go. Such dreadful misbehavior and such fearful temper fits. Are proof you need some strapping just to sharpen up your wits. So come you to the woodshed. It is now my grave concern To give a wholesome lesson which you seem too dull to learn."

The woodshed stands no longer, a garage is there instead. But there is no room for humans when the car is put to bed; No space where son and father can in conference remain. And the boy acquires instruction at the bitter. And something more has vanished—is it progress or mishap?—On a hook within the bathroom there is now no razor strap.

In these days of great invention Shingles, too, are hard to find. There is little left to fathers who'd improve a youthful mind. The safety razor's handy, the electric razor's here, But for discipline they're nothing that a small boy has to fear. Still, in retrospect, I'm grateful to that ancient razor strap And the lessons that it taught me long ago at father's lap.

Note on bureaucrats: Washington won't develop one region's magnesium for want of electric power; the region is sending its surplus power to other States.

## HINTS AND DINTS

Sun sets tonight 4:51. Sun rises tomorrow 6:37.

Judge Walter Braham and his fine helpers sure put over a nice big job for the Community Chest. It was about the nicest piece of work done in this city alone that line in a long time. Judge Braham is a busy man, but he took the time to work hard for the success of the drive. He had good help from President Matheny and all those connected with the various institutions interested. That's the kind of stuff that attracts favorable attention to New Castle.

So far we have not heard of any shortage of garlic.

To make fairly sure that an unpleasant job won't be done, plan to do it yourself.

We hear a chap who is building a new house is making a strong cellar under it so he can hide in it if he has to.

**INFERNAL MACHINE**  
Sonny—Dad, what's an infernal machine?

Dad—A radio that's kept running all night when you want to sleep.

Washington, D. C., is becoming overcrowded. There is hardly enough room left to put two feet on the desk.

It didn't take the telephone people long to discover that stronger poles would be needed to stop wild drivers.

**UNSETTLED**  
Robert—Your steak is like the weather this evening, madam, rather raw.

Landlady—Indeed! By the way, your board bill is like the weather, too—unsettled.

Two kinds of business places have to close on election day, the banks and the saloons. Wonder which is missed the most?

An old simile that went out when the automobile came in. "He can lie faster than a horse can trot."

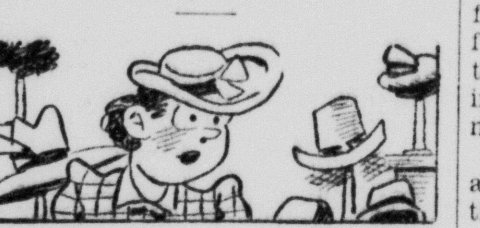

It is claimed that people get better when they get older. Some don't quit having fun until they have to.

One man calls another man a liar. The other man says "so are you." If both are right, they ought to become chums.

**ON A DIET**  
"So you are going home," said the kindly stranger to the wanderer. "I suppose they will kill the fatted calf for you?"

"Yes, that's the worst of it," replied the wanderer sourly. "I am on a diet and can't eat any meat."

This will be God's country when He is ready to take it away from the politicians.

A woman is a person who spends two hours trying on dozens of hats before selecting one just like her old one.

In New York hamburgers must be made of ground fresh meat, and nothing else except "a little suet and seasoning." Corned beef hash must have at least 35 per cent corned beef. And there must be chicken in chicken loaf.

**ON RECEIPT**  
When Jerry kissed you in public it didn't look good.  
"But it felt swell!"

Now we hear from some places that airplanes are flying too near the ground. Always sumpin'.

**AT LAST**  
A man had been looking around for a good church to go to and he happened into a small one in which

the congregation were reading with the minister. They were saying "We have left undone those things which we ought to have done and we have done those things which we ought not to have done."

The man dropped into a pew with a sigh of relief and said to himself: "Thank goodness, I've found my crowd at last."

A former colored slave now living in West Middlesex is 102 years old. He attributes his long life to avoiding liquor and tobacco and adhering to the simple rules of life. There are people who would rather not live so long and not avoid so many things.

And a lot of people are remembered for what they didn't do.

**THE TOO-AGGRESSIVE SALESMAN**

A "good mixer" is a valuable asset to any firm that employs him as a salesman or contact man. But an adept in this art must, like a good golfer, acquire judgment in his approach. When they are slapped, certain backs bristle, others bend. Many a sale has been spoiled by too great familiarity on the part of the salesman. I recall a night spent in a country hotel. During dinner, a very egotistical man strutted into the dining room. When the waiter showed him to a vacant table, the guest replied: "No. Here's a lonely looking gentleman over at that table." He was about to share the table with the lone diner replied: "You are mistaken, sir. I am not lonely and I do not know you." It happened that the rebuke came from the town's chief captain of industry to whom the salesman had come especially to sell a large volume of equipment but to whom he was never able to gain access after several days of repeated effort.

Question: When I inclose my personal card with a gift or with flowers sent to a very intimate friend, it always seems foolishly formal, as my card reads: "Mr. Anthony Blank." Is there any way in which I might eliminate this formality?—A. B.

Answer: In such cases, it is usual and quite permissible to cross out the title and the last name, leaving only the first name. On the contrary, when the one to whom the card is sent is not an intimate friend, neither the title nor the last name should be crossed out.

Question: I am invited to a housewarming. Must I bring a gift?—Sally.

Answer: It is customary to bring something for the new home.

Question: Please give me the correct form to use in writing invitations to an informal wedding and reception. I expect to write mine in ink.—Ada.

Answer: Here is a form on which you might base your notes:

"Dear Mrs. Smith:  
"Jim and I are going to be married on Saturday, Nov. 28, at 12 noon in St. James' church. We hope that you and Mr. Smith will come to the ceremony and the reception immediately afterward at my home. Let me know if you can make it."

Newsman Are Iked By Censorship Plea  
British Idea Causes Irritation Here  
Washington News Setup Is Peculiar One

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, Nov. 8.—American newspapermen do not like being censored. Possibly the press in other countries dislikes it also, but it's accustomed to it pretty well all over Europe. Here the boys are not, and they're pretty skittish of any hints of a censorial tendency. Most particularly they resent the idea of being regulated, here in the United States, by suggestions from England.

News scribes, of course, are a larger percentage of the population of Washington than of any other spot on earth and its also into Washington that British protests concerning the volume of Yankee publicity pour. Consequently the capitals correspondent corps is in a position to be well aware of the flood of em. And believe me, if John Bulls hush-hush organization did but know it, its persistent advice to our officials to cork up the chaps information sources on our side of the water is rapidly getting the London outfit into extreme disfavor with a gang that has a good bit to do with shaping public opinion in this hemisphere. I hear growls about it from every hand.

The British apparently won't be satisfied with a policy of mere silence on the part of American officials in possession of information that reporters are in quest of. The lads find out a lot of things that aren't told to em directly, and London evidently wants em forbidden to write such stuff after they get it somehow or other, and are certain its true.

**The Capitals Set-up**  
The Washington situation's peculiar.

Every department and agency, including the emergency groups, has its publicity staff, and there are classes of news that these birds not only are willing to disclose but anxious to have as widely broadcast as possible. Naturally they're under more or less obligations to the correspondents who help em to do it, and its rather difficult for em to be dissembling when one of the fellows (Continued On Page Five)

## What Noted People Say

(International News Service)

WASHINGTON—President Roosevelt states an American resolution—

"The American people have made an unqualified commitment that there shall be a free world. Against that commitment, no individual or group shall prevail."

MOSCOW—Premier Joseph Stalin expresses a wish—

"I hope that in the near future, thus relieving the task of the Red Army."

INDIANAPOLIS—W. A. Harriman, chairman of the American Mission to Soviet Russia, expresses confidence in Russia's ability to fight on after conferring with Soviet officials—

"In all our talks never once was there a word of defeatism. The will to fight is in the Russian heart."

PROVIDENCE, R. I.—Dr. Edward Ellery, national president of the Society of Sigma Xi, asserts scientists are in a position to be an "unconquerable force" in the preservation of freedom of thought—

"The well being of human society depends in a large measure upon the general adoption of the scientific attitude of mind, its mental discipline, its good will, its patience in reaching facts, his recognition of facts when uncovered, his honesty and fearlessness, and his willingness to forget himself in his search for and promulgation of facts."

## One Man's Opinion

By WALTER KIERNAN

International News Service Staff Writer

Lord Halifax has taken over Wendell Wilkie's old egg route.

We are so mixed up in our politics currently that even a visiting Briton is awarded a soft-boiled salute.

Until the civil war in the Republican and Democratic parties is over we are wearing our Bull Moose button.

Teddy Roosevelt campaigned on the Bull Moose ticket and was chastised for serving too little moose.

Now we have Republicans trying to read their presidential campaign out of the party and Democrats chewing their knuckles because their head man endorsed the Republican mayor of New York.

It is time to move Alice in Wonderland from the fiction to the biography shelves.

The mad hatter probably was a student of politics.

Thought for the day: the way to get a billion dollars is to say "Joe sent me."

## Words Of Wisdom

Let a man try faithfully, manfully to be right, he will daily grow more and more right. It is at the bottom of the condition on which all men have to cultivate themselves.—Carlyle.

## The World and the Mud Puddles

## HITLER'S TROUBLES

"All that a man hath will he give for his life." Satan, if the ancient chronicler of Job II 4, had the dialogue down correctly, said that to the Lord, and doubtless, the nimble gentleman of various aliases had conviction in his voice. Yet the record contradicts the verity of the theory. What mankind has attained in freedom of action has been gained because there have been so many men who did not value their lives higher than less mundane considerations.

The German doctrine of force in occupied countries does not originate with Hitler, any more than the feudal theory of boot-and-spur domination that he calls National Socialism and New Order is either new or original. Every conqueror of the past has believed that police power could repress human fortitude and the will of freedom. So the Germans appeal to brute force backed by the callous plan of executing hostages. Yet the history of the past carries conviction that the Nazis can slay at will without ending the reign of terror for the Nazi occupation itself.

Britain learned that sanguinary lessons in Ireland when an appraisal terminated guerrilla assassination no more than open war. Force can cow a majority anywhere but it has no effect on the ruthless minority that takes its own life in its hands and sees no reason to spare the hostages among their sympathizers whom regular executes. Hitler appears to be having the same experience in Poland, in Bohemia, in France. If he occupies Russia he will have it there.

Oppressed races cannot be persuaded that assassination is murder when the sniping killing is the only resource against might with no rights in its make-up. So long as occupation, the light of liberty has not been extinguished.

## BIRTHDAYS of FAMOUS AMERICANS

(Compiled by Encyclopaedia Britannica)

## NOVEMBER 9

1802—Eljah Lovejoy, abolitionist, at Albion, Me. He published at St. Louis a religious paper, "The Observer," in which he strongly condemned slavery and recommended gradual emancipation. Threats of violence forced him to move his paper to Alton, Ill., where his shop was destroyed by mob several times in one year. While defending the building against mob attack on the night of Nov. 7, 1837, Lovejoy was killed. His death added strength to the abolitionist movement.

1825—Ambrose Powell Hill, lieutenant-general in the Confederate Army in Culpeper county, Virginia. At the outbreak of the Civil War he resigned from the U. S. Army and became colonel of a Virginia regiment. By 1862 he was a major-general and one of Lee's most successful divisional commanders. He was made a lieutenant-general prior to the battle of Gettysburg, in which he commanded a corps. He was killed in action at Petersburg in 1865.

1865—Frederick Funston, major-general, U. S. Army, at New Castle, O. He began his military career as colonel of a Kansas volunteer regiment which went to the Philippine Islands in 1898. For his conduct at the battle of Calumpit in 1899, he received the Congressional Medal of Honor, and was promoted to brigadier-general of volunteers. Following his capture of Aguinaldo, leader of the Filipino insurrection, he was made brigadier-general in the regular establishment.

## HAPPYGRAMS by ERICH BRANDEIS

During his recent sojourn in New York, the Duke of Windsor visited the famous Planetarium of the American Museum of Natural History.

Here, as you know, you can see the whole universe in motion—the earth, the moon, the stars and all the planets, in miniature.

The Duke was impressed. "Would you like to run the universe for a bit?" asked Professor W. H. Barton, the lecturer.

England's former king stepped into the control room, pulled the proper switches and ran the whole universe for just a minute.

We wonder whether during that minute he thought of that other man over yonder who is trying to run the universe.

How soon will there be a short-circuit, how soon will the fuse blow out?

## Bible Thought For Today

But the Lord is in his holy temple: let all the earth keep silence before him. Habakkuk 2:20.

asks em a question on some subject that perhaps isn't quite desirable to have discussed in print. Probably there are innumerable leaks of this sort.

A case in point was that of the maritime commission's announcement, some time ago, that military supplies for Russia thenceforward would be sent via Boston and Archangel. Letting that item out, as President Roosevelt subsequently remarked, was like notifying Hitler by cable of the new route. Then the denial would fool Adolf considering that Boston-Archangel is a heap shorter way than the run by way of Vladivostok to the Persian Gulf.

It was one of the yarns, anyway, that London has contended we shouldn't have permitted to leak out.

## Governor Grants Pardon To Bilby

Colored Slayer Is Refused Clemency Plea, Commutations Given Eighteen Prisoners

(International News Service)

HARRISBURG, Nov. 8.—Acting upon the recommendation of the state board of pardons, made after consideration of clemency pleas submitted at its October 15-16 public hearings, Gov. Arthur H. James today announced the granting of a pardon to Albert J. Bilby, of Allegheny, and Washington counties. Bilby was sentenced in Washington county on January 27, 1930, to serve two years in the Allegheny county workhouse for issuing a check with intent to defraud. He was later sentenced on March 9, 1934, in Allegheny county to serve 22 months in the workhouse for false pretense, and again on June 15, 1937, in Allegheny county, for one and a half to 10 years in the Western State penitentiary for counterfeiting and larceny. He was paroled on December 15, 1938, and filed his pardon application on September 15, 1941.

**Clemency Refused**  
The board refused the clemency plea of Willie Jones, young Pittsburgh negro, sentenced to be executed November 24, but granted permission for reargument at the November 19 session, at which time a report will be made on his mental condition.

Governor James also signed commutations of sentences for 18 prisoners, making them eligible for parole on recommendation of the board. They included:

Leo Bilecki, Erie county, second degree murder; Howard Belmont Way, Indiana county, embezzlement; Joseph Russell, Jefferson county, robbery.

Seven cases were held under advisement and eight were continued. Other cases were refused.

## Gourd Exhibit Most Unusual

Little Miss Muffett would rub her eyes in wonderment, as she entered the Garden Center of the New Castle Free Public Library yesterday and today, for the sight of hand shaped pink storks with graceful lines, swans, tinted vases, a flock of penguins numbering eighteen or more, a "Horn of Plenty" displayed in all its colorful glory, drinking dippers, bird houses, table lamps, brown jugs in fancy and plain designs, red birds, miniature seals in black balancing a red ball on its nose, all these objects and many more being made entirely of Gourds.

This particular display is the result of a hobby of a well known figure in the garden world, Fred C. Clarke, of Mars, and gives one the impression they are in "fairland" taking in a miniature circus, with well shaped objects gazing so realistically at them. The odd and well shaped gourds, have been shellacked and painted by Mr. Clarke.

The gourd exhibit was arranged by the Walmo Garden Club, and cooperating with it additional commendable displays of fruits, gourds, etc. were the following clubs: North Beaver Garden Club, East Brook Garden Club, Harlansburg Garden Club and the Lawrence County Garden Club.

Mrs. Harold McCulloch served as chairman of the show committee and had assisting her in making the exhibit such a fine success the Walmo club president, Mrs. Nelson English and a committee composed of Mrs. Roy Kylander, Mrs. Reuben Kennedy, Miss Mary Haines, Mrs. Carl Hileman and Mrs. L. H. Dover. The exhibit will remain open to the public until 9 o'clock this evening.

# NEW CASTLE DEFEATS YOUNGSTOWN EAST 12 TO 0

## Gunn Gets Both Local Touchdowns

New Castle "Red Hurricane" Runs Into Tartar In Youngstown East; Jesse Gunn, Steller Left Guard Scores On Two Breaks To Give Locals Win; East Threatens Local Goal But Lacks Punch; Crowd Of 6,000 Sees Game.

IT RAINED a little, it snowed a little, but Jesse Gunn, the brilliant young colored left guard of the New Castle "Red Hurricane" football team didn't just play a little football, he played a whale of a lot and consequently New Castle is still undefeated and untied and have ten wins in the bag. Youngstown East was a tough foe to conquer last night at Taggart stadium. The score was 12 to 0 and about 6,000 fans braved the chilly atmosphere to watch it.

To just say that Youngstown East was "pounded" for the New Castle game last night would be putting it mildly. The Ohioans were pummeled to the utmost, they played a fine football game all the way and but for the two breaks that "Lady Luck" threw in the way of the locals, it would have been a scoreless contest. East High threatened and had it not been for the valiant New Castle line would have tallied.

**Gunn Falls On It**  
The first period was just a little better than half done, when a pass from Bobby Lee was intercepted by Dunlevy a Youngstown sub half-back on the East 20 yard line, this coming after New Castle had driven deep into East territory by ringing up three first downs in a row from the New Castle 49 yard line.

Andrews made a couple of yards for East and Wayland picked up four, but Dunlevy lost a couple of yards. East elected to kick and Wayland dropped back, to accomplish that end, but a fast charging young man by the name of Gunn aided by Masters rushed in and blocked the kick, the ball rolling back over the goal line and Gunn after it like a cat chasing a mouse. He fell on the ball and New Castle had its first

touchdown. Stewart's attempt at a conversion failed, New Castle 6-0 Youngstown East 0.

Gunn who was playing some game, did the kicking off for New Castle following the touchdown and the ball was taken by Dunlevy of East on his own 16. He returned it to the 31. Andrews made a first down on the East 47. Dunlevy and Andrews picked up four between them. Wayland punted to Lee on the New Castle 12 a beautiful boot and he ran it back to the 18 just as the first period ended.

**Second Period Scoreless**  
By the time that the second period began the field began to get a little slippery. Neither team could gain much ground in the second stanza there being four exchanges of punts and with nothing in the way of a scoring threat happening.

The only exciting incident of the second period was a 26 yard gallop by young Bobby Lee, who as if he would shake off his Ohio pursuers but he didn't and he was hauled down on the East 44 yard line. New Castle was in a bad way when the close of the period when Wayland who was a honey of a punter by the way, booted one that stopped on the New Castle nine-yard line. New Castle after two plays kicked out of danger. As the period closed Lee playing safety grabbed a Youngstown pass on his own 15 and he raced to the 31 before he was hauled down.

**It's Gunn Again**  
Midway in the third period it was the same alert Jesse Gunn who actually caught a fumble by Wayland of the East High team and before anybody realized it was speeding for the goal line 21 yards away. East had kicked off to New Castle to start the third period. Lee after two plays and a penalty booted to Youngstown ran on the East 25 and Andrews gained it to the East 29.

New Castle gained the ball on a pass interception by Bobby Lee on the New Castle 49 yard line. The pass being thrown by Dunlevy. Lee ripped through tackle and picked up a first down on the East 39. Stewart made three more, then New Castle was penalized. Lee punted out of bounds on the East High 21 yard line.

On the first play following the punt by Lee, it was Wayland the East fullback who tried to run with the ball, he fumbled it and here is where Gunn came in, he picked it out of the air like a botany student would a butterfly with a net, and was over the goal line before any of the players had any idea where the ball was. New Castle 12-East 0. The kick by Stewart was no good.

**Lee Grabs Pass**  
Bobby Lee intercepted a Youngstown pass as the third period closed and ran the ball from the New Castle 10 to the 26 before being brought down. New Castle just previously had been shoved back to their own three-yard line by a beautiful kick by Wayland.

Lee punted out to East on the New Castle 32 and Andrews had picked up five, when Dunlevy tried his pass that Lee grabbed.

**East High Threatens**  
To start the fourth period Lee kicked to East on the East 35-yard line. Dunlevy intercepted a pass thrown by Dunlevy on the New Castle 47-yard line. After two plays Lee punted to East on the Ohio 15 and Andrews taking the Ohio 15 to the East 44-yard line.

East High released a barrage of passes in the hopes of scoring as their running attack had bogged down. Dunlevy did most of the heavy lifting and one time he threw three in a row and did not complete any of them. Wayland finally being forced to punt to New Castle on the local 15 where Lee took it and raced to the 31.

East took the ball on a punt by Lee in the dying moments of the fourth period and really put on a show with their forward passing attack. Wayland threw a long pass to Gabriel who was downed on the

touchdown. Stewart's attempt at a conversion failed, New Castle 12-0 Youngstown East 0.

Gunn who was playing some game, did the kicking off for New Castle following the touchdown and the ball was taken by Dunlevy of East on his own 16. He returned it to the 31. Andrews made a first down on the East 47. Dunlevy and Andrews picked up four between them. Wayland punted to Lee on the New Castle 12 a beautiful boot and he ran it back to the 18 just as the first period ended.

**Second Period Scoreless**  
By the time that the second period began the field began to get a little slippery. Neither team could gain much ground in the second stanza there being four exchanges of punts and with nothing in the way of a scoring threat happening.

The only exciting incident of the second period was a 26 yard gallop by young Bobby Lee, who as if he would shake off his Ohio pursuers but he didn't and he was hauled down on the East 44 yard line. New Castle was in a bad way when the close of the period when Wayland who was a honey of a punter by the way, booted one that stopped on the New Castle nine-yard line. New Castle after two plays kicked out of danger. As the period closed Lee playing safety grabbed a Youngstown pass on his own 15 and he raced to the 31 before he was hauled down.

**It's Gunn Again**  
Midway in the third period it was the same alert Jesse Gunn who actually caught a fumble by Wayland of the East High team and before anybody realized it was speeding for the goal line 21 yards away. East had kicked off to New Castle to start the third period. Lee after two plays and a penalty booted to Youngstown ran on the East 25 and Andrews gained it to the East 29.

New Castle gained the ball on a pass interception by Bobby Lee on the New Castle 49 yard line. The pass being thrown by Dunlevy. Lee ripped through tackle and picked up a first down on the East 39. Stewart made three more, then New Castle was penalized. Lee punted out of bounds on the East High 21 yard line.

On the first play following the punt by Lee, it was Wayland the East fullback who tried to run with the ball, he fumbled it and here is where Gunn came in, he picked it out of the air like a botany student would a butterfly with a net, and was over the goal line before any of the players had any idea where the ball was. New Castle 12-East 0. The kick by Stewart was no good.

**Lee Grabs Pass**  
Bobby Lee intercepted a Youngstown pass as the third period closed and ran the ball from the New Castle 10 to the 26 before being brought down. New Castle just previously had been shoved back to their own three-yard line by a beautiful kick by Wayland.

Lee punted out to East on the New Castle 32 and Andrews had picked up five, when Dunlevy tried his pass that Lee grabbed.

**East High Threatens**  
To start the fourth period Lee kicked to East on the East 35-yard line. Dunlevy intercepted a pass thrown by Dunlevy on the New Castle 47-yard line. After two plays Lee punted to East on the Ohio 15 and Andrews taking the Ohio 15 to the East 44-yard line.

New Castle 40 with just a minute or two left to play. Andrews passed to Vicarel for the most peculiar play of the game, a one-yard loss on a pass. East took time out.

Wayland picked up five through the line and Andrews then passed to Vicarel for a first down deep in New Castle territory. Vicarel shoved a pass to Wayland good for a first down on the New Castle six-yard line. Andrews lost a couple of yards and then East drew a five-yard penalty for offside and the game was as good as over for East. The Ohioans had staged a valiant battle for a score, but the time element got them. "Lady Luck" was still riding the New Castle bandwagon.

In first downs New Castle led 8 to 5.

Next Saturday afternoon Warren, O., will be here for the final game of the 1941 season.

**CAGER IS DRAFTED.**  
CLEVELAND, O.—Ed. Postpanka, 6'3" cager, was drafted for football when Tom Conley needed a pass snagging end to pep up his offensive. Ed has not only proved adept at grabbing the pigskin, but is also demonstrating a good bit of defensive ability.

## Bands Present Clever Program

"Bicycle Built For Two" Is Feature—East Band Scores Big Hit Also

It used to be that the band between halves of the New Castle High football game or any football game for that matter marched on the field, to the tune of a Sousa number or "Anchors Aweigh," but all changed nowadays, in addition to the football game they also give you a floor-show.

The 6,000 or so fans who braved the elements last night at Taggart stadium were given a real treat and a big surprise also by really having a "bicycle built for two". The bike was loaned to the High School by Professor and Mrs. Wallace Biggs of Western college and gave the turning of the clock to 1890 routine the "Tush" that it needed. The bike believed to have been bought in England is the same one that the Biggs used in their "our of Europe" a few years ago. The New Castle High band was directed by Joe Replogle.

The bike last night was ridden by Mary Lou Marvin dressed as the gay gentleman and Suzanne Shannon as the gay young lady. As the band formed the clock figures the pair rode from the goal posts in and out of the formation and then parked in front of the grandstand and joined in the gay ninties dance by a dozen young high school girls dressed in the fashion of the 1890's. The following girls took part in the dance: Billy Jean Seal, Agnes Baker, Mildred Felasco, Betty Finessey, Shirley Snyder, Betty Casaccia, Joyce Alexander, Violet Tobin, Thomasina Armond, Irene Milowsky, and Vida Anthony.

The East High band of about 60 pieces was directed by Terry Carlson, a local man and provided a lot of snappy tunes and presented a group of 12 young girls who did "La Conga" number that was quite fetching and well put on. The latest tunes played by the high band included "Band Played On" and "Bicycle Built for Two".

Miss Margaret Fischer supervised the staging of the "floor show" and deserves a lot of credit for the time and work that it takes to stage an intricate number like that. The drum majorettes who took part in the show were drilled by Miss Christina Giacotti. The New Castle High band drum majorette. Credit for the securing of the bicycle goes to Dr. Arthur B. Foster Jr. and Mr. and Mrs. George Carpenter.

**Dunn told of meeting Walter Hart** and his picture star son, Bob Sterling, whom we knew as Bill Hart when he was a youngster going to the Y camp, 15 years ago. Dunn also said he belongs to the Ramblers club, an organization of 350 former New Castle folk, and of participating in their reunions.

**Just as he "hit town"**, Bob Latera, the former manager and teacher of boxers, espied Dunn. It was a pleasant meeting for both. Dunn told Bob of Mrs. Jim Jeffries having been fatally hurt by an auto. While on the coast, Latera and Jim Jeffries, the ex-heavyweight champ, became great pals.

**Dunn said he felt very sorry** that two of his former friends were gone. He referred to Jimmie Dime and Tony Ross. It was Dime who helped him along the first highway in Dunn's early day when Ross was battling other "white hopes" in the days when Dunn was meeting all comers in his class.

**We told Dunn of some of the boys**, like Jeffrey Dime, boxer, who have gone into the service and also told him of Joe Gilles, the heavyweight, now in Fort Leonard Wood. Dunn said that if Joe ever wanted to box and could get a leave of absence, he would find plenty of work with some of the present heavies.

**Yes, folk, it was Dunn's first visit** here in years and naturally he was like a machine-gun with his queries. We expected him to appear more aged but he does not. He is going to stay in the east for several weeks and anticipates another visit here within the near future.

**Bob Pastor defeated Booker Beck** with a 10-round fight last night in Chicago, and Marcelina Borrado, Mexico City, knocked out Joey Pirrone of Cleveland in the third round. Thomas, it is stated, was standing on a stump, when a rabbit was sighted, and when he jumped off the stump to run after the rabbit, his gun was discharged the charge striking him in the foot.

## HERE AND THERE IN SPORTS LAND

Jimmie Dunn, formerly of Cleveland, now of Los Angeles, and Walter Kasper, of Cleveland, paid New Castle, Dunn's home town, a visit last night. It was his first trip here since he departed for the Pacific coast several years ago. He came east to handle Jackie Wilson, now a welterweight against Sammy Secret and Jimmy Bivins, now a heavyweight against Mello Bettina, in Cleveland, November 17. He also will second a youngster by the name of Glover who reputedly "looks good."

Dunn looks the same as ever, excepting he has grown thinner. He explained this by stating he works out daily with his fighters. He expressed himself as pleased immensely that he received an opportunity to return east and especially to be able to visit his own home town.

In regard to the Wilson-Secret fight, Dunn said he had not seen Secret fight but would not be surprised were Wilson to knock out Dunn. Dunn declared "He took over the training of Bivins only recently. Dunn characterized Bivins as a big, strong fellow, who looks good."

**Dunn is fully conscious of what** Bettina can do having seen him in Pacific coast fights. However, if there is anyone who can mould a mass of willing, game flesh into a good fighter, it is Dunn, so Mr. Bettina's boy, Mello, can look forward November 17, to a hot fight, in Cleveland.

**He said that Eddie Simms**, his former heavyweight, is now on a movie payroll for \$100, a week, and which will jump up \$50, effective, January 1, is going good—in the movies. He played in "Ringside Maize" and made such a hit the picture folk consider him a good investment.

**Dunn told of meeting Walter Hart** and his picture star son, Bob Sterling, whom we knew as Bill Hart when he was a youngster going to the Y camp, 15 years ago. Dunn also said he belongs to the Ramblers club, an organization of 350 former New Castle folk, and of participating in their reunions.

## SPORTS WORLD RAMBLINGS

Clipped off the cuff: - - -

**A Friend postcards a rather interesting bit of stat for the mill.** The contributor states that Ed. Sovesky the former New Castle high football star and one of Lawrence County's foremost figure skaters, will soon get a try out with the famous ice show, "The Ice Capades." The trial is slated for this month. . . .

**There is a possibility that the 20-year age limit** may be raised by the PIAA. Most high schools object to the present 19-year plan because it eliminates too many boys from competing during their senior year. The ruling also places an extra burden on the small schools which already are handicapped due to lack of materials. The board will sleep on the matter until the mid-winter huddles.

**To Joe Fan:** Your interesting letter regarding the current WPIA point system very interesting. As long as New Castle high is a member of the league, it must, quite naturally, abide by any plan sanctioned by the league. Until a new plan is introduced, the league champion will be selected by the point system. To Andy Matteo, Youngsville, Pa. Write to Norman Nelson, New Castle high faculty manager for information you desire. . . .

## Seventh Degree Grange Members Banquet Friday

Secretary Of State Grange  
Speaker For Program At  
Liberty Grange Hall

One of the most successful annual banquets for the Seventh Degree Grange members of Lawrence county was held Friday evening at the Liberty Grange Hall.

This is the highest degree of the grange and there were 150 seventh degree members present. A fine chicken dinner was served by members of the host grange, after which the evening program was given.

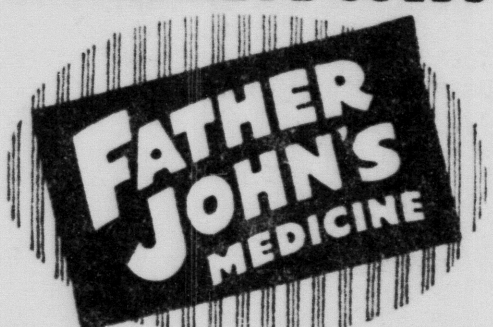

Pomona Master W. Sharp Fullerton presided and introduced the guest speaker, Miles Horst, secretary of Pennsylvania State Grange. Mr. Horst made an excellent and inspiring address.

Pep singing during the hours was led by W. H. McCullough of Big Beaver Grange. The Liberty Quartet sang several pleasing numbers and at the close, Mr. Horst delighted the audience with a humorous Dutch song.

Games during the evening were directed by Mrs. William Fox of Westfield and Mrs. John Robinson of East Brook. Mrs. Miles Horst was a special guest at the affair.

The following committee was in charge of arrangements and was largely responsible for the success of the banquet: Mr. and Mrs. John Robinson, East Brook; Mr. and Mrs. J. O. Cameron, Liberty; and Mr. and Mrs. William Fox, Westfield.
